## Sat. October 24, 2009 1:30pm

This will be our sixth MacGen Monthly meeting. Here what we've covered so far in 2009.

- April - Charts
- June - iPhone
- July - File Organization
- August - Advanced Charts
- September - Photos

Our group will be delving into how to enter source citations in Reunion. Sources are often overlooked in one's zeal to enter information into their database. One of the dividing lines between amateur and serious genealogists is the documentation of source material. There's nothing worse than being unable to answer the question, "Where did you get those facts?". It's like proving your case in a criminal trial.

We will cover briefly the variety of source record types, and then focus on these items:

- o Storing sources
- o How to add, delete, modify
- o How sources are cited

- o How to click/drag sources
- o Source numbering
- o How reports look
- o Printing source detail
- o Citation Appearance
- o Source photos

The Reunion lineage program is currently on version 9.09b.

MacGen has no connection to Leister Productions, the Church of Latter Day Saints or Apple Inc. We want to discover genealogy techniques on one of the best computing platforms and genealogy software programs in the business.
