Reunion & iPhone?

Sat. June 27, 2009 1:30pm

This is our second meeting. We started in April, showing Reunion's strength, charting. Reunion recently came out with a companion iPod/iPhone program. It allows you to save multiple Reunion Family Files to your iPod Touch/iPhone and then edit and save back to Reunion on your computer. Even if you don't have an iPod or iPhone, this topic will interest you as you will be consideringing mobile genealogy computing in the future.

We will also be talking about Reunion's Time Line feature, tips for Charting and creating web pages.

Formalizing our group will be discussed, including volunteers for the various functions in the group.

MacGen has no connection to Leister Productions, the Church of Latter Day Saints or Apple Inc. It just wants to discover and discuss genealogy techniques af the best computing platform and genealogy software in the business.

• Shortcut Keys

OAKLAND LDS FAMILY HISTORY CENTER

The Oakland LDS Family History Center is willing to let us to use their well equipped conference room to conduct genealogy-related meetings. With room for 50, a lectern, an overhead computer projector and wireless internet access, this room is excellent for specialty group meetings.

Come early to the FHC to do research then stay for the afternoon meeting. Their library has an excellent selection of genealogical books, maps, periodicals, microfilm and microfiche. FHC's volunteer staff is available to offer advice about your research.
