

# Mac & Genealogy?

## Sat. April 25, 2009 1:30pm

This will be an exploratory meeting to see if there is interest in sharing knowledge about the use of Macintosh computer tools and your genealogy research. The main tool is the genealogy lineage program, Reunion by Leister Productions (\$99). Other possible tools are iLife, writing, graphic, other genealogy programs, and Mac-based genealogy sites web sites. What we discuss in addition to Reunion will be determined by you. At this first session we should cover the agenda, then a regular monthly meeting and how it might be organized.

I helped start several computer user groups and have become quite interested in genealogy and using the Mac. It seemed natural to see if people in the East Bay would be interested in meeting to discuss this subject matter.

This proposed group has no connection to Leister Productions in any way. It just appears to be the best Genealogy program for the Mac. ... Bill George

Reunion is currently on version 9.09 (required for use with the iPhone).

### OAKLAND LDS FAMILY HISTORY CENTER

The Oakland LDS Family History Center is willing to let us to use their well equipped conference room to conduct genealogy-related meetings. With room for 50, a lectern, an overhead computer projector and wireless internet access, this room is excellent for specialty group meetings.

Come early to the FHC to do research then stay for the afternoon meeting. Their library has an excellent selection of genealogical books, maps, periodicals, microfilm and microfiche. FHC's volunteer staff is available to offer advice about your research.
